

Rose City Antifa Starter Pack

Research Conducted ~ Late 2018-19

Research Disclaimer:

Everything I am sharing here is purely as an investigative journalist interested in mapping the network of an idea, if you will. A completely unorganized, conglomeration of people who Joe Biden has assured the American people are not a threat and not an organization. So, I'm purely mapping the branches of the Idea tree. This information is shared with other citizen journalists and **absolutely no harm should come to the subjects of this research** from participating in lawful peaceful protests and free speech events.

I was not able to complete all the mapping. There is a core group of Rose City Antifa that all came up together. Little baby anarchists and crust punks. They brought in kids - like Brady Carmichael, who was probably 12-13 at the time that many of the old pics I found in their Facebooks were posted. They made the mistake of posting a Publicly visible group photo. They all show up in the YT vids from Portland riots starting 2016 and beyond.

They are surrounded by a much larger network of community activists, organizers, outreach folks, facilitators, etc. I was able to tag some of them as well. There is a huge image set that will have to go along with this. I'm not going to clean this up too much. There are lots of my personal notes here referencing their relationships and specific images. I'll post the images to Mega as they are very important as well if you want to continue this research.

Remember, all of this was gained from my mad OSINT skills and their inept use of social media. And Facebook had different settings back then. FB has closed most of the holes I used to use.

I have tagged a lot of them as Antifa, Black Bloc, etc. Not all Antifa go out blocced up. Many are have support or admin roles. The ones I knew were into a specific thing, I'd tag them.

Take this and run with it. Write good news articles. Give the credit that is due to these heroes of the revolution!

Enjoy - R.
